

CORY BAKER

☎ 501-765-4586 | ✉ douglasb2008@gmail.com | 🌐 www.corydbaker.com

Full stack web and mobile developer with an itch for dissecting confusing concepts and a knack for writing functional, organized, and DRY code.

TECHNICAL WORKS

Master-A-Million 2.0 - [App Store](#) | Reference www.corydbaker.com for video demo.

Connect your ball via bluetooth or audio jack and try to get a million bounces. Compare your score to others.

- Utilized React-Native for cross-platform mobile efficiency, Redux for state-management
- Re-wrote entire front and back-end to accommodate new bluetooth ball (previously audio jack)
- Integrated Devise with Ruby on Rails for back-end security, authentication, and session management

NYC Dept. of Youth & Community Development Website - Reference [here](#) for site map and preview.

Website that finally brings NYC's daycare application process online. Full site launches in March.

- Worked with artists, and UX Designers (Adobe InVision) to meet the needs of the DYCD team.
- Helped DYCD team integrate my fully responsive HTML/jQuery into their Angular framework
- Utilized Bootstrap, jQuery, and Google Maps

AstraZeneca Podcast App - Reference www.corydbaker.com for video demo.

Designed so that doctors and medical sales reps can keep up to date on the latest news in AstraZeneca products on the go.

- React Native and React's context API for state management
- Tapped into client's Kaltura API to access podcasts and videos

Astellas Kiosk Survey - Reference www.corydbaker.com for video demo.

Present and record healthcare data for clients

- Wrote front-end with React for project organization and easy manipulation of the DOM.
- Kept back-end lean with Node and Express.js

... and a lot more
